Internship Program Admissions

This APA accredited internship is located at The Guidance Center, a community mental health center that serves three rural counties in Kansas. All interns are based at our Leavenworth location. TGC is composed of a multidisciplinary, integrated treatment team of an entire range of mental health professionals and paraprofessionals. The mission of TGC is to provide quality care to the residents of our three county area, especially including those who have limited or no means to pay for their care and those affected by severe mental illness. TGC is part of a larger network in Kansas that works to minimize placement of those with severe illness outside of their home communities, even in the event of crises and exacerbated symptoms. The internship is designed to provide a generalist background in the practice of psychology in a community setting. A varied population with a broad range of psychological treatment needs results in psychologists who can implement various interventions from a stable theoretical base. In keeping with the general mission and philosophy of the training program, the internship is designed to assist interns in developing scientific and practice skills appropriate to those of a generalist working with children, adults, families, and couples at the competency of an entry-level psychologist. The community mental health center setting allows exposure to a plethora of experiences and modalities.

Requirements for Application

- Applicants must register for the match in order to be eligible for an interview and potential match to our internship program. Please see the APPIC website (www.appic.org) for Match Policies. Applicant Agreements for the Matching Program can be found on the National Matching Services, Inc. website (www.natmatch.com/psychint). Current enrollment in a doctoral program in clinical or counseling psychology and completion of a minimum of 3 years of graduate study and in good standing
- Completed a minimum of 500 practicum hours with at least 30 assessment hours
- Dissertation proposal must be approved by ranking deadline
- The program prefers, but does not require, that applicants be from APA accredited graduate programs in clinical or counseling psychology
- Licensure eligible in Kansas at the start of the internship year. Please see <https://ksbsrb.ks.gov/> for temporary LMLP requirements.
- The Guidance Center and its internship program are committed to the recruitment of culturally and ethnically diverse interns. We encourage inquiries and applications from all qualified individuals
